

# REFERENCE CASE

Danmon delivery Multi-Channel Production and Playout for DR  
The Danish National Broadcaster in Copenhagen Denmark

Customer Name:

Danish Broadcasting Corporation (DR)  
Copenhagen Denmark

Danmon Group Systems has provided extensive hardware installations at DR Byen, the central production facility for the Danish National broadcaster.

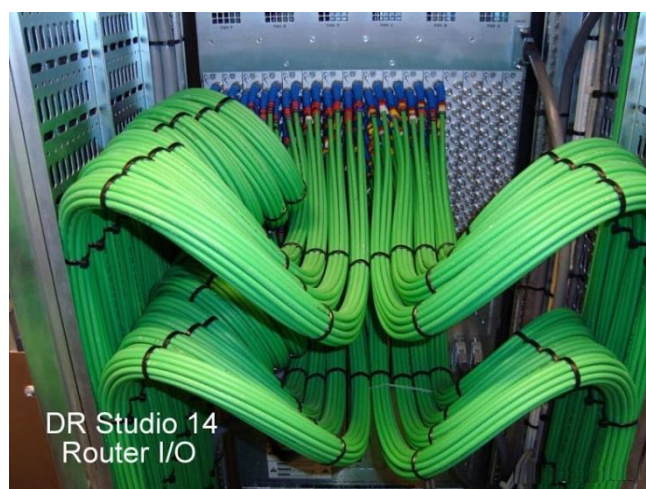

DR MASTER CONTROL

Located in Copenhagen, DR Byen has a staff of over 2,000 that provides for content and production for six channels of broadcast TV and streaming media, as well as nine radio channels.

Over multiple years, Danmon has built half of the dozen production studios and control rooms, the Master Control Room, and Continuity for the 7 channels. Danmon also provided HD-SD video servers for ingest and playout, the Playout Automation Control and Channel Branding to support the new DR Channel "On Air Look" and more.
